Experience

Fresher

Currently seeking opportunities to apply programming, problem-solving, and web development skills through internships and software projects.

Projects

StudionWheel — University Cycle & E-Bike Rental Platform

HTML, CSS, JavaScript

- Developed a web-based rental platform focused on providing affordable cycle and e-bike transportation options for university students.
- Designed flexible rental plans including **hourly, daily, and monthly** options to support different student requirements.
- Built the website interface using **HTML, CSS, and JavaScript**, focusing on usability and a student-friendly experience.
- Addressed a real-world student transportation problem by providing a low-cost and convenient rental concept.

Achievements

- Participated in **multiple hackathons**, gaining practical experience in problem-solving, teamwork, ideation, and rapid project development.
- Earned multiple **hackathon participation certificates**.
- Completed multiple **learning certificates** through technology and skill-development activities.

Technical Skills

Languages: C, JavaScript

Web Development: HTML, CSS, JavaScript

Core: Data Structures & Algorithms, Programming Fundamentals, Problem Solving
